

Maztaa — Refund & Cancellation Policy

Last Updated: 25 August 2026

This Refund & Cancellation Policy explains how cancellations, refunds, milestone payments, and project termination are handled for services purchased from **Maztaa**.

This Policy should be read together with the **Maztaa Terms of Service**, the applicable **Project Agreement or Statement of Work**, and any applicable payment-platform terms.

By purchasing a Maztaa service, you acknowledge the payment, cancellation, and refund terms described below, subject to any rights that cannot legally be excluded.

1. Services Covered by This Policy

This Policy applies to all website-development services offered by Maztaa, including:

- Website design
- Website development
- Responsive development
- UI/UX design
- SEO and performance setup
- CMS functionality
- Backend development
- Database integration
- Authentication
- API integrations
- Booking systems
- Dashboards
- Customer portals
- Website deployment
- Post-launch support
- Ongoing maintenance
- Custom web applications
- Other services specifically agreed with the client

The exact services included depend on the plan purchased and the agreed project scope.

2. Maztaa Plans

This Policy applies to all Maztaa plans and project categories.

Plan	Status	Price
Starter	Available	\$800
Professional	Available	\$1,500
Business Pro	Currently Unavailable	\$2,800

Custom Project Currently Unavailable Custom Pricing

A plan marked **Currently Unavailable** cannot be purchased until Maztaa officially makes it available through its website or checkout.

The availability, features, and pricing of plans may change in the future.

3. Standard Payment Structure

Unless otherwise agreed in writing, Maztaa projects use a **40% → 30% → 30% milestone payment structure**.

Milestone 1 — 40% Initial Payment

The first 40% payment is required to begin the project.

This payment allows Maztaa to begin activities such as:

- Discovery
- Planning
- Design
- Development setup
- Initial implementation
- Other agreed project preparation

Milestone 2 — 30% Development Review

The second 30% payment becomes due after the agreed development milestone has been completed and the client has been given an opportunity to review the functional development build.

Milestone 3 — 30% Final Launch

The final 30% payment becomes due before final production launch and applicable project handover.

4. Plan-Specific Payment Examples

Starter — \$800

Milestone	Percentage	Amount
Project Start	40%	\$320
Development Review	30%	\$240
Final Launch	30%	\$240
Total	100%	\$800

Professional — \$1,500

Milestone	Percentage	Amount
Project Start	40%	\$600
Development Review	30%	\$450
Final Launch	30%	\$450
Total	100%	\$1,500

Business Pro — \$2,800 (Currently Unavailable)

Milestone	Percentage	Amount
Project Start	40%	\$1,120
Development Review	30%	\$840
Final Launch	30%	\$840
Total	100%	\$2,800

Custom Project — Custom Pricing (Currently Unavailable)

Custom projects may have different total prices and milestone amounts.

The payment structure for a Custom Project will be specified in the applicable Project Agreement or Statement of Work.

Unless otherwise agreed, the standard 40/30/30 structure may be used.

5. Payment Processing Through Whop

Maztaa currently uses **Whop** for applicable checkout and payment processing.

Depending on the project, payments may be collected through:

- A 40% initial milestone checkout;
- Separate milestone payment links;
- A full-payment checkout;

- Another payment arrangement agreed with the client.

The payment method available to a client may depend on the selected plan or project.

Payments processed through Whop may also be subject to Whop's applicable terms, policies, and payment procedures.

6. Cancellation Before Project Work Begins

If a client requests cancellation **before Maztaa has begun substantive project work**, Maztaa may provide an appropriate refund of the amount paid.

The assessment may take into account:

- Applicable law;
- Any third-party costs already incurred;
- Administrative or project preparation work already performed;
- The applicable Project Agreement;
- The circumstances of the cancellation.

Where no substantive work or third-party expense has been incurred, Maztaa will generally aim to provide an appropriate refund.

7. Cancellation After Project Work Begins

Once substantive project work has started, cancellation does not automatically result in a full refund.

Maztaa may consider:

- Design work completed;
- Development work completed;
- Discovery and planning;
- Meetings and consultations;
- Project setup;
- Revisions already performed;
- Third-party costs;
- Domain-related expenses;
- Hosting-related expenses;
- Other reasonable project expenses.

Any refund will be assessed according to the circumstances, the applicable agreement, and applicable law.

8. The 40% Initial Payment

The initial 40% payment is used to begin the project and fund the initial stages of development.

It may cover:

- Discovery;
- Planning;
- Design;
- Development setup;
- Initial development;
- Project administration.

Therefore, once substantive project work has begun, the initial payment may not be fully refundable.

However, this provision does not remove or restrict any refund, cancellation, withdrawal, or consumer rights that cannot legally be excluded.

9. Cancellation After the Second Milestone

If a client cancels after the second 30% milestone has been completed or has become payable, Maztaa may retain amounts corresponding to work already completed.

If part of the project remains undelivered and applicable law requires a refund, the relevant amount will be assessed accordingly.

Maztaa may pause further development while the cancellation or project status is resolved.

10. Cancellation Before Final Launch

If a client cancels after the project has reached the final review or launch stage:

- Amounts relating to completed work may remain payable;
- Final deployment may be paused;
- Final handover may be paused;
- Outstanding payments may remain due where they correspond to completed or agreed work;
- Any refund required by applicable law will still be provided.

Final ownership or applicable handover rights are generally subject to full payment.

11. Change-of-Mind Requests

Because Maztaa provides customized website-development services, changing your mind after work has started does not automatically create an entitlement to a full refund.

Examples include deciding that the client:

- Prefers a different design;
- Wants different colors;
- Wants different images;
- Wants a different layout;
- Wants a different business direction;
- No longer wants the website;
- Wants to replace the original concept.

Maztaa will first attempt to resolve reasonable design concerns through the revision process included in the applicable plan.

Major changes outside the agreed scope may require additional fees.

12. Revisions and Refund Requests

Each plan may include a defined revision allowance.

Clients should normally use the included revision process to request reasonable changes before requesting cancellation because of a design or functionality concern.

Revisions cover reasonable changes within the agreed project scope.

They do not automatically include:

- Complete redesigns;
- New website concepts;
- New pages;
- New features;
- New integrations;
- Major changes to approved work;
- Requirements introduced after development has substantially progressed.

Additional work may be quoted separately.

13. Client Delays

The client is responsible for providing required:

- Content;

- Images;
- Business information;
- Account access;
- Feedback;
- Approvals;
- Decisions.

If the client delays the project by failing to provide required information or feedback, the project timeline may be extended.

A client-caused delay does not automatically create an entitlement to a refund.

14. Client Inactivity

If the client becomes unresponsive, Maztaa may temporarily pause the project.

Maztaa may attempt to contact the client through the designated project communication channel.

If a project remains inactive for an extended period, Maztaa may classify the project as paused or inactive.

Restarting an inactive project may require:

- A revised timeline;
- Confirmation of the original scope;
- Additional charges for substantial changes;
- Other reasonable project adjustments.

Any refund will be considered according to this Policy, the applicable Project Agreement, and applicable law.

15. Third-Party Costs

A project may require third-party services or purchases, including:

- Domain registration;
- Domain renewal;
- Hosting;
- Premium software;
- APIs;
- Plugins;
- Paid fonts;

- Stock assets;
- External integrations;
- Database or infrastructure services.

If Maztaa has already incurred a third-party cost on behalf of the client, that cost may not be refundable where the relevant provider does not provide a refund.

Where reasonably possible, Maztaa will inform the client before significant third-party costs are incurred.

16. Domain and Hosting Refunds

Domain registration and hosting services may be subject to the refund policies of the relevant provider.

Once a domain has been registered, Maztaa cannot guarantee that the registration fee can be recovered.

Similarly, hosting or third-party subscription fees may not be refundable if the relevant provider does not permit refunds.

17. Third-Party Service Failures

Maztaa may rely on third-party services such as:

- Vercel;
- GitHub;
- Supabase;
- Google services;
- Domain providers;
- Payment providers;
- APIs;
- Other external platforms.

If a third-party service experiences an outage, technical limitation, price change, security issue, or discontinuation outside Maztaa's reasonable control, this does not automatically create an entitlement to a full project refund.

Maztaa will make reasonable efforts to identify an appropriate solution where possible.

18. Refunds Due to Maztaa's Failure to Deliver

If Maztaa is unable to deliver the agreed project for reasons within Maztaa's reasonable control, Maztaa will first attempt to:

1. Correct the issue;
2. Complete the agreed work;
3. Provide an appropriate alternative solution.

If the agreed service cannot reasonably be completed, Maztaa may provide an appropriate refund for undelivered services, taking into account work already completed and applicable law.

19. Defective or Non-Conforming Work

If the delivered website materially fails to match the agreed project scope, the client should raise the issue through the designated Maztaa Support Chat.

Maztaa will have a reasonable opportunity to investigate and correct legitimate issues.

Depending on the circumstances, Maztaa may:

- Fix the issue;
- Provide a reasonable revision;
- Correct affected functionality;
- Provide another appropriate remedy.

A technical issue that can reasonably be corrected does not automatically result in a full refund.

20. Final Payment and Launch

The final 30% payment is due before final launch and applicable project handover.

If the final payment has not been received, Maztaa may delay:

- Production launch;
- Final deployment;
- Code handover;
- Repository handover;
- Other final deliverables.

This does not prevent any mandatory legal rights that may apply to the client.

21. Ownership and Refunds

Ownership or applicable usage rights for the agreed final project deliverables are transferred according to the applicable Project Agreement after full payment.

If a project is cancelled before completion, ownership and usage rights for incomplete or unpaid work do not automatically transfer to the client.

Third-party and open-source components remain subject to their respective licenses.

22. Consumer Cancellation Rights

Depending on the client's country and circumstances, mandatory consumer-protection laws may provide cancellation, withdrawal, refund, or other rights.

These rights may depend on:

- Whether the client is a consumer or business;
- The client's location;
- How the contract was entered into;
- Whether work has started;
- Whether the service has been completed;
- Whether the client requested the service to begin before an applicable cancellation period ended.

Nothing in this Policy is intended to remove or restrict rights that cannot legally be excluded.

23. Business Customers

If a client purchases Maztaa services on behalf of a business or organization, different contractual rules may apply than those applicable to individual consumers.

The applicable Project Agreement may establish additional commercial terms relating to:

- Payment;
 - Cancellation;
 - Scope;
 - Deliverables;
 - Intellectual property;
 - Liability;
 - Project termination.
-

24. Chargebacks and Payment Disputes

If a client has a concern regarding a payment, project, refund, or service, Maztaa encourages the client to first raise the issue through the designated support channel.

Maztaa will make reasonable efforts to resolve legitimate disputes.

Where a payment dispute or chargeback occurs, Maztaa may provide relevant records to the applicable payment provider, including:

- Payment records;
 - Project scope;
 - Client communications;
 - Approvals;
 - Development progress;
 - Delivery records;
 - Revision history.
-

25. How to Request a Cancellation or Refund

Cancellation and refund requests should be submitted through the official Maztaa Support Chat:

Maztaa Support Chat

To help Maztaa process the request, the client should provide:

- Name;
- Business name, where applicable;
- Whop purchase or transaction information;
- Project name;
- Reason for the request;
- Relevant project information.

Maztaa may request additional information where reasonably necessary to review the request.

26. Refund Processing

Approved refunds will generally be processed through the original payment method or applicable payment provider.

Once Maztaa initiates a refund, the time required for the amount to appear in the client's account may depend on:

- Whop;
- Payment processors;
- Card networks;
- Banks;
- International payment processing.

Maztaa does not control processing times after a refund has been successfully initiated.

27. No Double Recovery

A client may not recover the same amount twice through:

- A Maztaa refund;
- A payment-provider dispute;
- A chargeback;
- Another compensation mechanism.

Where duplicate recovery occurs, Maztaa may seek correction of the duplicate amount where legally permitted.

28. Exceptions

Maztaa may consider exceptional refund or cancellation circumstances on a case-by-case basis.

An exception does not create an automatic entitlement to the same exception in future cases.

Any approved exception should be confirmed through the applicable project communication channel.

29. Changes to This Policy

Maztaa may update this Refund & Cancellation Policy from time to time.

Changes may be necessary because of:

- Changes to our services;
- Changes in payment providers;
- Changes in project processes;
- Changes in technology;
- Changes in applicable law.

The latest version will be published on the Maztaa website.

The **Last Updated** date at the top of this Policy indicates when it was most recently revised.

Changes will not remove mandatory rights that apply to existing purchases.

30. Relationship With Other Documents

This Refund & Cancellation Policy should be read together with:

- **Maztaa Terms of Service**
- **Maztaa Privacy Policy**
- **Project Agreement / Statement of Work**

- **Applicable Whop terms and policies**

If a specific Project Agreement contains project-specific payment or cancellation terms, those terms may apply to that particular project, provided they do not conflict with mandatory applicable law.

31. Support

For cancellation and refund requests, use the official
